The following is an examiner's statement of reasons for allowance: US 5,073,217 is the closest prior art of record. This reference has been discussed extensively in the instant specification. Given the applicant's definition of multimodal distribution on page 11, it is clear that the reference fails to teach or fairly suggest the use of a multimodal particle size distribution. The reference teaches only one size range in any of the examples.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Cain whose telephone number is (571) 272-1118. The examiner can normally be reached on M-F from 10:00 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan, can be reached on 571 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
